

TENUTA CASATI

CASATI

Made in Italy for the lifestyle.

INSPIRATION

In the Italian panorama of knowledge and know-how, Casati intends to be the spokesperson for a new green Renaissance, opening up to a dialogue between nature and art, with a push for innovation, devoted to uniqueness, taking its name from Luisa Amman, the best known Marchesa Casati who loved to define himself as a "living work of art".

A hand holding a golden bust of a woman's head, with a blurred background of a woman in a red dress.

VISION

The CASATI AWARD fits into the taste of the brand and the exploration shared with contemporary Italian artists in collaboration with exclusive partners who share the same mission: CULTIVATING ART

This breath of life inspires Casati in an open dialogue with contemporary art.

THE CASATI LOGO

The Casati logo represents a lion opposed to an olive branch that stands like a crown, enclosed in a frame of shells, of pure invention and was designed for the Maison by a contemporary artist.

CASATI

A suggestive synthesis between the lion represented on the estate and the frescoes of Palazzo Bianconcini, places where the brand was born. At the same time, the feline recalls the Palazzo Venier dei Leoni in Venice which was the home of Casati and then of Peggy Guggenheim.

WHITE GOLD COLLECTION

The lunar skin of the Marchesa Casati, from the famous portrait of Romaine Brook, inspires the Casati white gold line which remains a "nocturnal" creation, wrapped in the essence called Stramonium, a hypnotic nocturnal flower that blooms only on the moon.

CASATI PERFUME

The word Perfume derives from the Latin “per-fumum”, which means “by smoke”.

The first perfume called 'Casati' is a return to the origins, with an unusual and surprising smoky fragrance, unique in its kind.

Casati Perfume. Inspired by the femme fatale Luisa Casati, Casati essence has a strong and decisive personality that imposes itself at first perception with fiery masculine notes, then unveils a warm amber heart, in a final olfactory illusion that intrigues the soul and body, leaving an unforgettable mark of enveloping personality.

Surrender to the pleasure of a mysterious essence: an iconic scent impossible to forget.

CASATI PERFUME

Casati perfume is celebrated by works of art, ampoules that reveal a precious nectar that seduces the senses.

Choose the different ampoule each time to become a collector of contemporary art

SANTolio

Designed by Francesco De Molfetta the SANTolio ampoule, a distillate as precious as the jewel that holds it, manipulated each time to access the ampoule, in the repetition of a meditative gesture to exalt the sacredness of a "philosopher's" gold, in a perfect alchemy of synthesis and senses.

OCYPETE

The meditative spirit and creative light of the Maison celebrates the impetuous and sublime elegance of Casati, in the collectible artist's cruet, designed by Fabrizio Cotognini called Ocypete, a tribute to an ancestral feminine spirit, a figure connecting worlds.

Sculpture stopper, lost-wax bronze casting, chiseled by hand.
The dispenser, in the repetition of past gestures, to dose perfume in a few drops only.

Casati White

Mysterious and lunar, inspired by Stramonium, a nocturnal flower that blooms under the moon, a tribute to the Marquise's lunar skin

Casati Black

Amber and powdery, inspired by the deep black of Kajal in the famous photo of the Marquise by Man Ray

Casati Honey

Masculine and feminine, inspired by the Ouroboros in a union that celebrates sacred nectar, in a transformative accord

Casati N.79

Metallic and spicy, inspired by the philosopher's stone in the alchemical transmutation of metals into gold

Casati Green

Sensual and magnetic, inspired by Belladonna who gave the Marquise's eyes a deep green

Casati Red

Magnetic and voluptuous, inspired by the Aquilegia flower, 'lion's herb', in dialogue with the House's leonine coat of arms

Casati Purple

Soft and woody, inspired by the Delphinium flower, to enhance royalty, in the divine Fibonacci proportion.
