# CASATI N. 79

The Casati N.79 gold line was born from the Maison's laboratories.

# INSPIRATION

In the Italian panorama of knowledge and know-how, Casati intends to be the spokesperson for a new green Renaissance, opening up to a dialogue between nature and art, with a push for innovation, devoted to uniqueness, taking its name from Luisa Amman, the best known Marchesa Casati who loved to define himself as a "living work of art".

# VISION

The CASATI AWARD fits into the taste of the brand and the exploration shared with contemporary Italian artists in collaboration with exclusive partners who share the same mission: CULTIVATING ART

This breath of life inspires Casati in an open dialogue with contemporary art.

# THE CASATI LOGO

The Casati logo represents a lion opposed to an olive branch that stands like a crown, enclosed in a frame of shells, of pure invention and was designed for the Maison by a contemporary artist.

A suggestive synthesis between the lion represented on the estate and the frescoes of Palazzo Bianconcini, places where the brand was born. At the same time, the feline recalls the Palazzo Venier dei Leoni in Venice which was the home of Casati and then of Peggy Guggenheim.

# Casati Perfume

The word Perfume derives from the Latin “per-fumum”, which means “by smoke”.

The first perfume called 'Casati' is a return to the origins, with an unusual and surprising smoky fragrance, unique in its kind.

Inspired by the femme fatale Luisa Casati, the Casati essence has a strong and decisive personality that imposes itself in a first perception with ardent masculine notes, to then reveal a warm amber heart, in a final olfactory illusion that intrigues the soul and the body leaving an unforgettable sign of enveloping personality.

Surrender to the pleasure of a mysterious essence: an iconic fragrance impossible to forget.
