CASATI PERFUME

The word perfume derives from the Latin “per-fumum,” which means “through smoke.”

BLACK CASATI - 100ml - 220 €

The first fragrance of the Maison is a return to origins, featuring an unusual and mysterious smoky scent.

It possesses a strong, determined personality that immediately asserts itself with fiery masculine notes, only to reveal a warm, amber heart. This creates a final olfactory illusion that intrigues both soul and body, leaving an unforgettable mark of an enveloping character. An iconic fragrance, one of a kind, impossible to forget.

Casati made in Italy for the lifestyle,

Abandoning the poetics tied to the personality of a single creator, embraces a “ribbon of dreams” that flows between nature and art in search of refined essences, drawing from the higher spirit of collective consciousness.

Like a Renaissance patron, each creation celebrates the spirit of Italian craftsmanship, seeking stories of authenticity.
